Laurence Shatkin : 10 Best College Majors for Your Personality before purchasing it in order to gage whether or not it would be worth my time, and all praised 10 Best College Majors for Your Personality:

5 of 5 people found the following review helpful. God readBy kiwiqueen42Its a good book to lead you in the right direction. It was right on with what I was interested in just based on all the questions you have to answer. I think it works.13 of 14 people found the following review helpful. Seriously lacking, but a good idea.By betweenthepagesI loved the idea of this book--being able to find not only a career you could enjoy and succeed at, but one that fits your personality type as well as financial and educational priorities. And while some of the charts are helpful, this book is VERY LIMITED in its coverage. For example: psychology, one of the most popular majors nowadays, is not even included. That was the main thing I was looking for--what jobs I could get from a degree I would enjoy getting--and there is not a peep on the subject. Also, the "personality matcher" is inconsistent. It matched me with many careers that I could never picture myself in. I suppose this book is going to be really helpful for some more traditional people, who want to stick to the age-old careers of nursing, law, etc., but for those of us looking above and beyond, this isn't the book for you.8 of 8 people found the following review helpful. 10 Best College Majors is a MUST-READ!By Dr.

Mary Askew *10 Best College Majors for Your Personality* is a reference book for career experts, counselors, advisors, and coaches. A guidebook for teachers, parents, and students.
