"First rate advice."--APHA
What sort of training do you need to work in public health? What kinds of jobs are out there right now? And what exactly is an epidemiologist, anyway? Answering these questions and more, this career guide provides an overview of the numerous options in public health and the many different roads to get there. Whether you're a student who wants to launch a career or a professional looking to change careers, this guide offers an easy introduction to the field. It details the training, salary ranges, and degree requirements for each job, and alerts

readers to alternative pathways beyond the traditional MPH.
