Tom KENDRICK : 101 Project Management Problems and How to Solve Them: Practical Advice for Handling Real-World Project Challenges before purchasing it in order to gage whether or not it would be worth my time, and all praised 101 Project Management Problems and How to Solve Them: Practical Advice for Handling Real-World Project Challenges:

1 of 1 people found the following review helpful. This is like a self-help book for project managersBy Honest

Opinion This is like a self-help book for project managers. Kendrick does a nice job describing some of the problems that team leaders face and offers quick solutions for how to deal with them. Some of the responses are generic but all-in-all it's a useful book for any PM. 0 of 0 people found the following review helpful. Five Stars By Nicholas James Errico - Keynote, Author - Off the Beaten Path - A Project Management Field Guide Great book with lots of pointers! A sure buy! 0 of 0 people found the following review helpful. Reasonable for generating ideas By N LA reasonable book for ideas on how to deal with unusual project management problems. I have used it a couple of times just to read the authors perspective to gain other ideas.

Even with a terrific project management program in place, problems can arise to derail your team's hard work. The last thing you need in the heat of battle is academic theory. You need field-proven fixes, practical answers to urgent questions, and simple strategies for navigating around obstacles. 101 Project Management Problems and How to Solve Them explores a wide range of these real-world challenges, including how to: **•** Keep a project on track despite unavoidable interruptions. **•** Prevent unreliable outside collaborators from jeopardizing the entire project. **•** Manage project teams who have little or no project management experience. **•** Make up for lost time without cutting corners. **•** Succeed in the face of threatened budget cuts. **•** And many more. Filled with plan-ahead strategies as well as on-the-fly solutions, this helpful guide is the ultimate project adviser and on-the-job troubleshooter in one!
