Khee Giap Tan, Nurina Merdikawati, Mulya Amri, Blake Harley Berger : 2014 Annual Competitiveness Analysis and Development Strategies for Indonesian Provinces (Asia Competitiveness Institute - World Scientific Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised 2014 Annual Competitiveness Analysis and Development Strategies for Indonesian Provinces (Asia Competitiveness

Institute - World Scientific Series):

This book is a world-class report by the Asia Competitiveness Institute, updated annually to analyse Indonesia's competitiveness at the provincial level. With 104 indicators covering four environments, the study's unique methodology incorporates comparative strengths and weaknesses. Apart from scores and rankings, what-if policy simulations offer various provinces practical prescriptions to improve overall competitiveness to accelerate economic growth and development in a balanced, fair and sustainable way. Such qualitative and quantitative analyses in collaboration with various stakeholders generate an exciting pathway for Indonesia to attain its rightful place in both the Asian region and global contexts.

From the Inside Flap This book is a world-class report by the Asia Competitiveness Institute, updated annually to analyse Indonesia's competitiveness at the provincial level. With 104 indicators covering four environments, the study's unique methodology incorporates comparative strengths and weaknesses. Apart from scores and rankings, what-if policy simulations offer various provinces practical prescriptions to improve overall competitiveness to accelerate economic growth and development in a balanced, fair and sustainable way. Such qualitative and quantitative analyses in collaboration with various stakeholders generate an exciting pathway for Indonesia to attain its rightful place in both the Asian region and global contexts.
