**Bernard Marr : 25 Need-To-Know Key Performance Indicators** before purchasing it in order to gage whether or not it would be worth my time, and all praised 25 Need-To-Know Key Performance Indicators:

0 of 0 people found the following review helpful. KPIsBy MaccaSome great advice on KPIs0 of 0 people found the following review helpful. A big thank to Mr Marr for the easy to understand explanations in this bookBy CustomerIt's absolutely a must to have asset for today's professionals.A big thank to Mr Marr for the easy to understand

explanations in this book. Also for the systematic approach taken towards writing each one of those 25 KPIs. 1 of 1 people found the following review helpful. Good as an initial read on the subject, but lacks some depth on the specific KPIs. By Eugene Good as a quick primer and you can come away with some good initial ideas for setting up your first set of KPIs. But the lack of depth will definitely require that you dig deeper into material that pertains to your industry, as the examples are mostly related to manufacturing.

Includes 10 handy do's and don'ts of using KPIs Want to measure the performance of your people and your business? Need a quick overview of the most useful KPIs and how to use them? Only want what you need to know, rather than reams of theory? With the critical Key Performance Indicators required to understand your employees, financials and customers, this book tells you what you need to know, fast. 'This book does a fantastic job of narrowing down the best KPIs for you and your team. It's short, sharp and incredibly useful.' --Thomas H. Davenport, Distinguished Professor at Babson College and author of BigData@Work
