In '5 Ways To Make It In NYC', you'll learn the 5 steps to take once you arrive to the big city to take charge of your career. These steps include how to build your network and influence; how to stand out at the office; how to become the "CEO" of your career and much more. (Included in the book are links to bonus video interviews and articles.) These are the same steps that author Antonio Neves took when he first arrived to New York City from a small Midwest town with just \$600 in his pocket. Following these steps, he went on to build a successful television career with top networks including NBC, PBS, News, BET Networks, Nickelodeon and more. Everything Neves shares in 'How To Make It In NYC,' led to his successful career today as an Ivy League graduate, award-winning business journalist and founder of THINQACTION where he coaches top entrepreneurs. If you live in a small or medium-size town and regularly dream about moving to New York City or another big city to begin or continue your career, this book is for you.
