From Routledge India : A Resurgent China: South Asian Perspectives before purchasing it in order to gage whether or not it would be worth my time, and all praised A Resurgent China: South Asian Perspectives:

Bringing together a range of South Asian perspectives on rising China in a comparative framework, an attempt has been made, for the first time, to identify and examine the political, economic and socio-cultural stakeholders and

constituencies that influence the respective policy of individual South Asian countries towards China. The essays also project how their mutual relations are likely to be shaped by these. The book is especially relevant today owing to China's growing weight in Asian and global affairs.
