Czinkota's "As I Was Saying" and "As the World Turns" are riveting collections of short commentaries on the most relevant international news. What I especially liked about these books is that they take longer academic articles or even entire books and shorten them into readable and funny editorials. This allows for anyone, from policy makers to academics to the businessmen, to reflect and adopt what is advised in these short pieces of commentary without having to read lengthy journal articles. Professor Czinkota includes his vast amount of knowledge of business, culture, and international policy into these commentaries. In addition, he gives a variety of examples relating current events to historical ones, adding a quirky sense of humor along with them. I would absolutely recommend reading these books.0 of 0 people found the following review helpful. Remarkable!By Anna AstvatsatryanAs I Was Sayinghellip;Observations on International Business and Trade Policy, Exports, Education and the Future" is a book masterly written. Short, easily read and spiced up with a great sense of humor, this book is perfect for anyone who has interest in international marketing, business and trade. Ironic illustrations in this book accompanied with deep and very useful research and observations create an unforgettable reading experience.

This exciting new title by Michael Czinkota is the perfect read for businesspeople to better understand just what is at stake in understanding and strategizing about international issues and opportunities.

His international work experience in five continents makes his commentary reflective of cultural constraints and varying expectations. He captures these dimensions both in word, and then, for each commentary, also in cartoon. Enjoy this book which provides short, delectable morsels of reading. --Philip Kotler Te S.C.
