ADBI, ADB : ASEAN, PRC, and India: The Great Transformation before purchasing it in order to gauge whether or not it would be worth my time, and all praised ASEAN, PRC, and India: The Great Transformation:

Asia's remarkable economic performance and transformation since the 1960s has shifted the center of global economic activity toward Asia, in particular toward the Association of Southeast Asian Nations (ASEAN) economies, the People's Republic of China, and India (collectively known as ACI). While these dynamic developing economies do not form any specific institutional group, they constitute very large economies and markets. These emerging Asian giants share common boundaries, opportunities, and challenges. Their trade, investment, production, and infrastructure already are significantly integrated and will become more so in the coming decades. This book focuses on the prospects and challenges for growth and transformation of the region's major and rapidly growing emerging economies to 2030. It examines the drivers of growth and development in the ACI economies and the factors that will affect the quality of development. It also explores the links among the ACI economies and how their links

may shape regional and global competition and cooperation.

About the AuthorThe Asian Development Bank Institute (ADBI) is the think tank of the Asian Development Bank (ADB). It was established in 1997 to identify effective development strategies and to improve development management in ADB's developing member countries.The Asian Development Bank (ADB) is the leading international development finance institution dedicated to reducing poverty and improving the quality of life in the Asia and Pacific region. With about 3000 employees from 61 countries, ADB focused on delivering projects that create economic and development impact.
