From Routledge : Asian and Pacific Cities: Development Patterns (Routledge Advances in Asia-Pacific Studies) before purchasing it in order to gage whether or not it would be worth my time, and all praised Asian and Pacific Cities: Development Patterns (Routledge Advances in Asia-Pacific Studies):

The cities of Asia and the Pacific are at the epicentre of development in what is arguably, the most populous, culturally distinctive, and economically powerful region in the world. 16 major cities such as Tokyo, Shanghai, Manila, Jakarta, Bangkok, Singapore, Auckland, Kuala Lumpur and Santiago, located in countries as diverse as Mexico and Vietnam, Samoa and India, China and Australia, exemplify the changing patterns of development across this vast region of the world. By tracking economic and social trends the contributors to this collection reveal how a wide range of political and cultural factors have interacted over time to provide a powerful explanation for the shape and characteristics of the city today. Based on a collaborative research programme and drawing on the work of local researchers, this book examines the realities of city development characterised by domestic migration, spatial and social fragmentation, squatter settlements and gated communities, economic experiments and the emergence of the Asian Tigers. The collection as a whole records the way in which countries in this region have moved from underdevelopment to become global economic and political powers. This book provides a fascinating journey through Asia and the Pacific by generating an insiders' view of each city and an insight into national development. As such it will be of great interest to students and scholars interested in: the Asian and Pacific region; in disciplines such as economics, politics, geography and sociology; and in policy domains such as urban planning and economic development.

About the Author Ian Shirley is Pro Vice Chancellor and Professor of Public Policy at Auckland University of Technology, New Zealand. He is the research leader and Director of the Asian and Pacific Development Programme. Carol Neill is a Senior Researcher engaged in the Asian and Pacific Development Programme. She is employed by the Institute of Public Policy at Auckland University of Technology in New Zealand.
