T. Asada, P. Flaschel, Tarik Mouakil, Christian Proantilde;o : Asset Markets, Portfolio Choice and Macroeconomic Activity: A Keynesian Perspective before purchasing it in order to gage whether or not it would be worth my time, and all praised Asset Markets, Portfolio Choice and Macroeconomic Activity: A Keynesian Perspective:

This book extends the KMG framework (Keynes, Meltzer, Goodwin) and focuses on financial issues. It integrates Tobin's macroeconomic portfolio approach and emphasizes the issue of stock-flow consistency.

About the Author TOICHIRO ASADA is Professor of Economics at Chuo University, Tokyo, Japan. His research interests include Macroeconomic Dynamic Theory and business cycles. He has published several books and many articles on Macroeconomic Dynamic Theory both in English and in Japanese.
