Danilo Di Mauro, Vincenzo Memoli : Attitudes Towards Europe Beyond Euroscepticism: Supporting the European Union through the Crisis before purchasing it in order to gauge whether or not it would be worth my time, and all praised Attitudes Towards Europe Beyond Euroscepticism: Supporting the European Union through the Crisis:

The book addresses the topic of EU legitimacy by exploring the forms, origins and effects of citizens' support to EU institutions. Through examining the wide-ranging levels of support, the authors show how these multi-faceted attitudes cast shade on the outdated, somewhat one-dimensional concept of Euroscepticism. Di Mauro and Memoli not only observe how political issues and the economic crisis affect public opinion, but also demonstrate how national contexts play a crucial role in shaping attitudes towards Europe at any level of support. This volume shows how the lack of accountability in the EU system makes it increasingly vulnerable to the negative effects of economic and societal shocks, and the 'national lens' that we view the EU through influences our voting choices.
