From Routledge : Austrian Economics (Routledge Revivals): Historical and Philosophical Background: Volume 18 before purchasing it in order to gauge whether or not it would be worth my time, and all praised Austrian Economics (Routledge Revivals): Historical and Philosophical Background: Volume 18:

First published in 1986, this book presents a reissue of the first detailed confrontation between the Austrian school of economics and Austrian philosophy, especially the philosophy of the Brentano school. It contains a study of the roots of Austrian economics in the liberal political theory of the nineteenth-century Hapsburg empire, and a study of the relations between the general theory of value underlying Austrian economics and the new economic approach to

human behaviour propounded by Gary Becker and others in Chicago. In addition, it considers the connections between Austrian methodology and contemporary debates in the philosophy of the social sciences.
