Experiences and Perspectives on the Viability of Income Guarantee (Exploring the Basic Income Guarantee):

This exciting and timely collection brings together international and national scholars and advocates to provide historical overviews of efforts to pass basic income guarantee legislation in their respective countries and/or across regions of the globe.

"This book integrates careful research, political theory and practical insights in a way that no other volume on the idea of a basic income guarantee has yet done. Through engaging and thoughtful presentation of wide ranging national case studies, readers will learn a great deal about the global state of play. In an age of growing economic insecurity, the book provides a timely reminder of the possibilities income guarantee schemes offer for improving social wellbeing." - Greg Marston, professor of Social Policy, QUT University, Australia
