Marianne Cantwell : Be a Free Range Human: Escape the 9-5, Create a Life You Love and Still Pay the Bills before purchasing it in order to gauge whether or not it would be worth my time, and all praised Be a Free Range Human: Escape the 9-5, Create a Life You Love and Still Pay the Bills:

8 of 8 people found the following review helpful. Few books brought tears...By garrettarofew books brought tears to my eyes and now "Free Range" joins that list. It's an entirely different way of living your life from the professional perspective. I have always had trouble following orders and holding jobs (my longest JUST ended after a year), but this book puts into perspective, "why?". If travel and/or being your own boss is your aim, this is a must read.4 of 4

I recommend getting this book in the paperback vs kindle as ...By Juliane Santos I'm Usually not a self help / career book fan but this one caught my attention. I bought it on kindle and figured "why not?!" This is not a "get rich quick" book. It's about going back to basics and thinking in a new way. It's enlightening and sincere. Expect to think independently and separate from the pack and be creative. Sometimes the strength in career/life advice is about hearing the same thing over and over but in different ways or from different people. This book resonates with me and was eye opening. I hope others experience this too. The book is full of interesting audio, links to other books and resources and engaging exercises. It also has many stories/ interviews from SO many different people and perspectives. I recommend getting this book in the paperback vs kindle as there are lots of exercises. Enjoy the journey!

12 of 13 people found the following review helpful. Skeptical? Don't be. Solid Investment and fun read. By KAR My default reaction to self-help, improve-your-life/job/marriage/happiness-in-5-steps, kind of books is to roll my eyes and walk away. I read them only if a trusted friend endorses them, and then, only in private, or with a huge paper bag over my head if in public. This one came highly recommended by a dear friend and within a few pages I was hooked. Cantwell does several things very well: -Her conversational tone is encouraging, relatable and motivating. -She shares her own journey in a way that makes you want to read more, hear more and start your own adventure living differently. -Practical, introspective exercises with a clear beginning and goal accompany her anecdotes (Yes, the kind of reflective, pen to paper activities that make you think-- noooooo, not a silly brainstorming exercise-- for about 30 seconds. Then, before you know it, that resistance lifts and little and big insights start to emerge.) -She includes case studies of other people, who you can actually track down online, who have made their free range way in life. If you are looking for pragmatic advice on how to really figure out what you want to do besides your current job, how to actually test the waters with ideas before bailing, and what you can do (today) to cultivate serious enthusiasm and courage for making a change, get a hold of this read.

Free Range is the new career change Trapped in a job that's 'just not you'? Always dreaming of your next vacation and counting down to the weekend? Imagine getting paid to do something that brings you alive, without ever having to walk into an office again. It's all possible with this smart guide that breaks you out of the career-cage and puts you in control of your life. Be a Free Range Human is a breezy, energizing and straight-talking guide to creating an amazing lifestyle and a great income, doing what you love (on your own terms). Packed with inspiring case studies from people who've done it, this book shares unconventional ideas and practical steps to:

- Discover what you really want to do with your life
- Create a 'free range' career tailor-made for your unique personality and interests
- Ditch the job and still make as much (or more) as you do now
- Get time and location freedom (make money travelling the world or hanging out in your favourite cafe)
- Get started in 90 days, for less than pound;100 (you don't need an MBA, funding or stuffy business plan to do it)
- Stand out from the crowd and do things your way!
