From Springer : Financial Integration: A Focus on the Mediterranean Region: 36 (Financial and Monetary Policy Studies) before purchasing it in order to gage whether or not it would be worth my time, and all praised Financial Integration: A Focus on the Mediterranean Region: 36 (Financial and Monetary Policy Studies):

The Arab upheaval and the world's biggest financial crisis after the Great Depression were almost simultaneous in their occurrence. The Mediterranean economies now face a dual challenge of a political and financial restructuring in the light of a shaky economic pedestal on which they stand. In light of this socio-political and economic shift in both inland and world markets, this book offers a thorough analysis on problems, prospects and the way ahead for the financial integration of the South-Mediterranean region. Several perspectives on financial integration and policy recommendations are put forward from a leading group of researchers specializing on the Mediterranean region.

From the Back Cover The Arab upheaval and the world's biggest financial crisis after the Great Depression were almost simultaneous in their occurrence. The Mediterranean economies now face a dual challenge of a political and financial restructuring in the light of a shaky economic pedestal on which they stand. In light of this socio-political and economic shift in both inland and world markets, this book offers a thorough analysis on problems, prospects and the way ahead for the financial integration of the South-Mediterranean region. Several perspectives on financial integration and policy recommendations are put forward from a leading group of researchers specializing on the Mediterranean region.
