A great book that is simplified about good leadership and success ...By AliA great book that is simplified about good leadership and success in life. It's great to see how a very successful man thinks without complexity.

If you thought it was worth hearing the insights of a man at the head of a major corporation or who has turned around a disaster-prone technology company, here's a new level. This book is packed with ideas for governance, leadership and life from the man behind the city that's home to the world's tallest tower, largest mall and two million people from 220 nationalities - backed by the world's busiest airport and the biggest manmade seaport on earth. This is Dubai and its ruler, Sheikh Mohammed. And these are his inspirations for leadership and success. Available for the first time in an updated and refreshed Pocket Edition, Sheikh Mohammed shares the many important ideas which not only sit at the heart of his vision for his nation but are also central to the wellbeing of society and personal happiness. By bringing together these unique experiences, ideas and thoughts, Flashes of Thought offers a compelling routemap and blueprint for professional and personal fulfilment.
