Greg Capra : Intra-Day Trading Tactics: Pristine.com's Strategies for Seizing Short-Term Opportunities (Wiley Trading) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Intra-Day Trading Tactics: Pristine.com's Strategies for Seizing Short-Term Opportunities (Wiley Trading):

0 of 2 people found the following review helpful. fair at bestBy paul polinogreg gives you a flavor of his information he tells of just a few tactics and he has so much more to offer that is much more relevant. This book is a treasure at

best10 of 13 people found the following review helpful. Mark And RememberBy SouthernmostTraderThe trading tactics and market analysis information in this book, when coupled with the lesson on the DVD, can make any intra-day trader better at what he/she does. After I learned how to pick bottoms intra-day the RIGHT way using the tips in the book and on the disk, it set me free. Pay attention to the introduction of the book. Particularly the part about being able to use the DVD to watch the lesson after the lesson. Coupling the two educational tools was a great idea. The fact that the video editing and camera angle aren't Hollywood quality is just more confirmation that these guys aren't good at making movies, they're good at trading stocks. I will be buying the lesson on swing trading next. Look for the review!9 of 13 people found the following review helpful. Intra Day Trading Tactics By Greg CapraBy D. WaniThe contents of the book are good. There is lot to be desired in the DVD. The videographer is terrible. When the author is talking of a particular bar with his Laser pointed on it, the camera is on a wide angle showing a little chart and the author. He should have shown a larger image of the chart so that we know what bar the author is talking about.

Short-term traders have used intra-day tactics to build wealth for years. Now Greg Capra shares his secrets in this book/DVD course package designed to energize your trading and arm you with the critical elements you need to make more money. You'll see how Capra pools an array of indicators, creating a single profitable trading protocol that will be used to make winning trades over and over. See him guide you through this methodical approach, then study his method thoroughly point by point in this carefully crafted set of instructional material. Watch and read as Capra drives home the following critical points: The three foundational forms of intra-day trading The psychological demands you'll need to know to win big The need to define your financial plan; building wealth or gaining income The importance of mastering charts; 5 and 15 minute patterns The all-critical "tick indicator" how to master it as a key timing tool These are but a few of the points that Capra outlines in this comprehensive learning set. Use the book and the DVD to develop a working, hands-on knowledge of moving averages, risk limits through relative strength analysis, and targets that will position you for huge gains with minimum financial risk. This course will give you everything you need to achieve intra-day trading mastery.

About the AuthorGreg Capra is president and CEO of Pristine Capital Holdings, Inc., the nation's leading educational service for self-directed traders. He has 15 years of experience as a day trader and swing trader. Many years ago, Capra realized how to collect valuable intra-day information from stock quotes and store them into an orderly computerized system. He utilized a program called SuperTic to track and evaluate this information, which led him to his pursuit of intra-day trading tactics. In those days, free online stock charts and quotes were not widely available, and institutional traders had a great advantage over the individual trader. Today, the playing field is more level. Capra saw an opportunity to build an educational and research firm for self-directed, independent traders. This meant that ordinary people could now possess a sophisticated level of research on par with institutional traders and hedge funds. Capra developed The Pristine Swing Trader, an advisory newsletter with over 60,000 subscribers, and is co-author of the book, Tools and Tactics for the Master Day Trader (McGraw-Hill, 2000). Pristine.com was founded in 1994 and combines publication-based education with seminars and education services aimed at helping traders gain an intuitive understanding of the markets. Over 400 seminars are conducted each year around the world. Before founding Pristine, Capra spent 15 years running his own business. Since founding Pristine.com, his desire has been to educate the individual investor in quantitative analysis of market movements.
