Carlos Rodrigo Illera, Marcos Mailoc Loacutep;pez de Prado : Invertir en Hedge Funds: 1 (Spanish Edition)

before purchasing it in order to gage whether or not it would be worth my time, and all praised Invertir en Hedge Funds: 1 (Spanish Edition):

2 of 2 people found the following review helpful. The best book on Hedge Funds I've ever readBy George FellowcraftI first saw this book by chance in the Library of Congress. After some minutes I found it so comprehensive and educative I fell in love with it! The book solves central problems regarding risk measuring and portfolio optimization with alternative investments, everything explained clearly in the chapters, supported with extensive mathematical appendices. A jewel for all professionals in the hedge fund industry, specially for quant researchers.I cannot understand why it has not been translated to english, this book has no peer in financial literature.2 of 2 people found

the following review helpful. An outstanding breakthrough!!By Alfonso de FonsecaThis books in unique in Finance. Each chapter presents a major achievement, a practical success which permits the reader further progress in truly understanding the very arcanes surrounding the world of hedge fund investing. Carefully prepared, the authors provide online additional documentation and on-line help to readers at:[...]No must-have but this one!

Con una capitalizacioacute;n que excede los 600.000 millones de doacute;lares y maacute;s de 4.000 entidades, la industria de los Hedge Funds no puede ser ignorada por maacute;s tiempo. Su papel en el sistema financiero internacional es cada vez maacute;s palpable y notorio, hasta el punto de poder afirmar que una cartera de inversioacute;n sin Hedge Funds es con toda certeza ineficiente. El desconocimiento de estos vehiacute;culos de inversioacute;n situacut;a fuera del mercado laboral a muchos profesionales y estudiantes deseosos de trabajar en entidades financieras internacionales. Los lectores interesados en la (opaca) operativa de los vehiacute;culos de inversioacute;n domiciliados en paraiacute;sos fiscales, como ocurre con la mayoriacute;a de los Hedge Funds, encontraraacute;n en este libro una fiel guiacute;a de su estructura y funcionamiento. INDICE RESUMIDO: Preliminar y organizacioacute;n del estudio. Introduccioacute;n y definiciones. Economiacut;a de la empresa en los Hedge Funds. Marco Legal de la industria de los Hedge Funds. Estrategias de inversioacute;n Mercado-Neutrales. Rendimiento y riesgo de los Hedge Funds. Eficiencia de los Hedge Funds. Tesis, futuro delos Hedge Funds y conclusiones.
