Putri Pascualy : Investing in Credit Hedge Funds: An In-Depth Guide to Building Your Portfolio and Profiting from the Credit Market (Professional Finance Investment) before purchasing it in order to gage whether or not it would be worth my time, and all praised Investing in Credit Hedge Funds: An In-Depth Guide to Building Your Portfolio and Profiting from the Credit Market (Professional Finance Investment):

0 of 0 people found the following review helpful. The Definitive Guide to Credit Hedge Fund Investing By Stephen M. Puckowitz This book is the definitive guide to credit hedge fund investing. Whether it's sourcing, evaluating or

investing in credit hedge funds, Putri has written a timeless and very detailed vehicle for understanding how to invest in the product. The book explores the vast array of credit funds ndash; from high yield and distressed to sovereign. The chapters on Legal and Structuring and the Operational Due Diligence are excellent templates for the new or even existing manager to follow. I particularly liked the "Key Takeaways and Questions" section as it served as an excellent reinforcement of the discussed material. 0 of 0 people found the following review helpful. Must read for anyone investing in credit hedge funds. It gives a clear description of the various credit strategies, the specific issues one needs to be wary of, and the right questions to ask to avoid the pitfalls of alternatives investing. I especially liked the "Key Takeaway" and "Key Questions" feature which effectively highlights the important topics. I recommend it for institutional investors and individual accredited investors as well. I also recommend it for people who market to institutional investors and who want to be knowledgeable about and cognizant of the concerns of your prospective clients. 0 of 0 people found the following review helpful. Clearly written book that keeps to its stated scope. Putri does a great job of dissecting the different kinds of credit hedge funds. I like how she highlights key concepts and summarizes the takeaways from each chapter. The book is in plain English and so was good commute material.

THE DEFINITIVE GUIDE TO CREATING A POWERFUL STRATEGY FOR INVESTMENTS IN CREDIT HEDGE FUNDS Following the credit crisis that rocked the global markets, many investors were left with a great sense of unease. However, when faced with historically low interest rates in a world awash with liquidity, they flocked back into the credit market. But this wave of liquidity will soon come to an end. Investors are grappling with their need for return generation while trying to navigate an increasingly volatile credit market. Given its inherent flexibility, the hedge fund structure is ideal for investing in the credit market. In *Investing in Credit Hedge Funds*, PAAMCO credit strategist Putri Pascualy shows how to profit from a variety of credit-focused investments, including: **HIGH-YIELD BONDS** - Capitalize on the inefficiencies in the market for levered companies **STRESSED / DISTRESSED MARKETS** - Develop mastery of the bankruptcy and reorganization processes to spot your best opportunities **BANK LOANS** - Take advantage of loans' structural seniority and collateral while navigating credit, liquidity, and operational risk **CONVERTIBLE BONDS** - Apply trading acumen to invest in hybrid instruments that combine the best features of bonds and equities **SOVEREIGN DEBT** - Understand the difference between the corporate and sovereign bond market and manage the macroeconomic risks in a credit portfolio. *Investing in Credit Hedge Funds* provides in-depth research on the most commonly used structuring vehicles, the legal rights and responsibilities of all parties, and the pros and cons of separately managed accounts. It provides practical, expert advice on conducting operational due diligence and best practices in mitigating counterparty risks to avoid the fates of those who suffered losses as Bear Stearns, Lehman Brothers, and MF Global went down. And it reveals practical risk-management techniques unique to credit investing. *Investing in Credit Hedge Funds* provides a fully rounded education in creating a powerful credit portfolio that will instantly put you ahead of the investing pack. **PRAISE FOR INVESTING IN CREDIT HEDGE FUNDS** "Read this book if you want to understand how a leading hedge fund-of-fund investor evaluates distressed credit opportunities in the aftermath of the financial crisis." -- Bruce Brittain, Executive Vice President, Product Management Group, PIMCO "Arms the institutional investor with the tools to conduct a more robust evaluation of a credit hedge fund's strategy, structure, and operational credibility. It is a practical resource for the diversified institutional investor." -- Susan Ridlen, Assistant Treasurer, Eli Lilly and Company "Provides insight for investors to become more equipped to deal with the ever-evolving credit markets in the future." -- Lorraine Spurge, CEO of Maplestone Capital Advisors, LLC

"The detailed definitions and descriptions of high-yield bonds, stressed and distressed securities, convertible bonds, sovereign debt and bank loans would be especially helpful to trustees of pension funds and regents who oversee college endowments. A strong dose of risk management and due diligence tips will serve investment officers well as they build, assess and refine their institutional fund's credit allocation." - Pension and Investments "This is a book where an investor in credit hedge funds shares her real-life learning experience with other investors" - Bloomberg "Investing in Credit Hedge Funds provides in-depth research on the most commonly used structuring vehicles, the legal rights and responsibilities of all parties, and the pros and cons of separately managed accounts" - Reuters About the Author **PUTRI PASCUALY** is the senior credit strategist and a portfolio manager at Pacific Alternative Asset Management Company (PAAMCO). She is responsible for managing investment portfolios on behalf of leading institutional investors. She specializes in evaluating global opportunities in corporate credit and distressed debt. Ms. Pascualy has led the research and structuring of large institutional mandates, where she utilized hedge funds and complex alternative investment strategies as part of innovative portfolio solutions for global investors.
