In *Investment Planning*, two of the best-known authors in the investment planning field, Geoffrey A. Hirt and Stanley B. Block, have joined forces with finance expert, Somnath Basu, to show financial planners how to successfully manage their clients' investments consistent with their personal objectives and levels of risk tolerance. This landmark book carefully explains the essential theory required to understand how financial markets work—and describes step by step how best to diversify and balance a portfolio of investments to reduce risk and increase expected returns. Ranging from fixed-income securities, common and preferred stock, and mutual funds; to options, futures, derivatives, and other investment vehicles, *Investment Planning* cuts through the complexities of today's burgeoning financial landscape with clear, concise accounts of:

- Types and uses of investment vehicles
- Types of investment risk
- Measures of investment risk
- Measures of investment returns
- Time-influenced security valuation concepts
- Bond and stock valuation methods
- Portfolio management and measurement concepts
- Formula investing
- Investment strategies
- Asset allocation and diversification
- EMT
- Asset pricing models
- Leverage of investment assets
- Hedging and option strategies
- Tax efficient investing
- Investment strategies in tax-advantaged accounts
- Taxation of investment vehicles

An excellent resource for preparing for the Certified Financial Planner (CFP) exam, this comprehensive reference also includes real-world case studies and listings of investment websites in each chapter—plus a broad array of at-a-glance charts and tables. Authoritative and completely up-to-date, *Investment Planning* now offers professionals all the tools, techniques, and guidance they need to seize new opportunities in the financial marketplace and maximize returns on their clients' investments!
