Tony Et Al Cavoli : Issues in Governance, Growth and Globalization in Asia before purchasing it in order to gauge whether or not it would be worth my time, and all praised Issues in Governance, Growth and Globalization in Asia:

This volume is a compilation of important papers relating to the financial, governance and political economy structures of the region, using a variety of methods and topics. Following the Asian crisis and subsequent global financial upheavals, policymakers and academics issued cries for institutional reform at the state and firm level; in many cases, reform was actually implemented rather than simply rhetorical. This volume begins by addressing issues

relating to corporate governance within firms located in East Asia and as entities participating in corporate ownership elsewhere. Next, the key issues of globalization are directly addressed, including foreign direct investment into the region, integration among Southeast Asian countries and with the rest of Asia, and multinational enterprise investment strategies in Asia following initial entry decisions. Finally, the macroeconomic policies of state actors, and the effects of economic growth are examined.

Contents: Introduction and Overview (Tony Cavoli, Siona Listokin and Ramkishen S Rajan) Entrepreneurship and Governance: Convergence in the Ownership and Governance of East Asian Firms (En-Te Chen, Stephen Gray and John Nowland) Asian and Non-Asian Institutional Investors and Proxy Access Proposals (Siona Listokin) Integration and Investment: Post-Foreign Entry Decisions by Global Retailers in Asian and Non-Asian Markets: Like or Unlike?
