From Palgrave Macmillan : Italian Banking and Financial Law: Crisis Management Procedures, Sanctions, Alternative Dispute Resolution Systems and Tax Rules: 4 (Palgrave Macmillan Studies in Banking and Financial Institutions)

before purchasing it in order to gauge whether or not it would be worth my time, and all praised Italian Banking and Financial Law: Crisis Management Procedures, Sanctions, Alternative Dispute Resolution Systems and Tax Rules: 4 (Palgrave Macmillan Studies in Banking and Financial Institutions):

Within an environment made difficult by the continuing economic crisis, the Italian model for crisis management and resolution has helped to avoid many difficulties faced by intermediaries across the globe. However, the Italian model for crisis management will be forced to adapt to the new EU Bank Recovery and Resolution Directive, which introduces a unified regime for such events in all EU countries. This book explores the various methods for crisis management employed in Italian finance. The authors discuss procedures used in the banking and insurance sectors, such as deposit guarantee schemes and alternative dispute resolution systems. They also explore the evolution of the administrative sanctioning systems, and the roles of tax rules and credit rating agencies in Italian finance. This book analyses the evolution of the various crisis management processes, and discusses potential goals and improvements within the context of recent measures suggested by the European Commission.
