From Oxford University Press : Japan, China, and the Growth of the Asian International Economy, 1850-1949: v. 1 (Japanese Studies in Economic and Social History) before purchasing it in order to gage whether or not it would be worth my time, and all praised Japan, China, and the Growth of the Asian International Economy, 1850-1949: v. 1 (Japanese Studies in Economic and Social History):

Modern Asian economic history has often been written in terms of Western impact and Asia's response to it. This volume argues that the growth of intra-regional trade, migration, and capital and money flows was a crucial factor that determined the course of East Asian economic development.

"...an important corrective to traditional accounts in its clear picture of how and why interactions between East Asian economies shaped the region's economic development." * Economic History Services *About the AuthorKaoru Sugihara has been Professorial Research Associate in the Department of History at SOAS, University of London, since July 1996, as well as Professor of Economic History in the Graduate School of Economics, Osaka University. He is Visiting Scholar at the Reischauer Institute of Japanese Studies, Harvard University until March 2004.
