**From Routledge : Japanese Firms in Europe: A Global Perspective (Routledge Studies in Global Competition)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Japanese Firms in Europe: A Global Perspective (Routledge Studies in Global Competition):

In this study, the contributors examine the evolution of Japanese direct investment in Europe and explore its determinants. They illustrate how, as multinationals, Japanese firms adapt to local conditions and try to take advantage of a global organisation. In this respect, three areas in particular are explored: human resource management, relationships with suppliers and RD unit locations.
