Scott Hipsher : The Private Sector's Role in Poverty Reduction in Asia (Chandos Asian Studies Series)
before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Private Sector's Role in Poverty Reduction in Asia (Chandos Asian Studies Series):

The private sector has an important role in poverty reduction in Asia. The Private Sector's Role in Poverty Reduction in Asia argues that the best way to create sustainable projects is to create win-win situations where both

private companies and individuals working their way out of poverty can benefit. The book provides a practical guide for managers and individuals working in the private sector in the least developed areas of Asia to help make a difference to the lives of others. The book's opening chapter considers the private sector's role in poverty reduction in Asia and following chapters discuss the variable nature of development, developing economy environments in Asia and business practices and strategies in these economies. A number of Asian economies are considered in turn, including: China; Vietnam; Thailand; Cambodia; Laos PDR; Southeast Asian countries; South Asian countries; Central Asian countries; and the Himalayas. The final chapter looks at creating sustainable win-win situations. Focuses on practical advice for acting managers Uses primary research carried out in developing economies, with interviews and ideas from local managers and business owners Covers a variety of academic theories, empirical evidence and personal experiences of individuals working in the region

About the Author Scott A. Hipsher has extensive experience living, working and researching in developing economies in Asia. He is currently working in Henan Province. His published works include *Business Practices in Southeast Asia: An Interdisciplinary Analysis of Theravada Buddhist Countries*, various book chapters, academic journal articles, newspaper and magazine articles, as well as a number of blogs and internet articles.
