**Jeff Furman : The Project Management Answer Book, Second Edition** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Project Management Answer Book, Second Edition:

0 of 0 people found the following review helpful. Bridge the gap between real world and theory project management!By daniel foreroI thoroughly recommend this book to anyone who is studying to take the PMP exam. I just passed my PMP exam this past weekend, and I think this book helped me achieve that. I had studied the PMBOK on my own, and I had taken a wonderful bootcamp course, but this book provided just the alternate source of information that I needed. I highly recommend taking the author's advice and having an alternate study source, whatever that may be. For me, it was this book, and it worked very well.A major factor this book helped me, was that Mr. Furman's writing style is from a experienced PM with "real world" experience, and he was able to bridge the gap many "real world" PM's have when studying for the PMP exam. He was able to put on his "PM hat" and explain why

this particular theory or process was valuable. In short it bridged the gap between theory and real world experience. Mr Furman writing style is very easy to read, and is very refreshing after reading the PMBOK for a few hours at a time. I highly recommend this book. 0 of 0 people found the following review helpful. Highly recommend this book for PMP exam!! By Sabrena Thomas I've had the pleasure of taking Mr. Furman PMP prep class, he is very thorough and use real world examples to bring home his points. This book was an excellent companion book to the PMBOK while studying for the PMP. The question and answer format helps you to think ahead and the material is presented in a fun and easy to digest manner. This book coupled with the PMBOK and Mr. Furman's class really cemented the material I needed to know for the exam and helped me to pass. The book is also excellent as a reference while working on projects. 0 of 0 people found the following review helpful. Excellent "Knowledge Gap Filler" for all Aspiring PMPs By Nelson Arce Mr. Furman's book was the one that pushed me over the top to help me get my PMP earlier this year! Whenever there was a topic in the PMBOK that I struggled to "get" I often found myself using this book to find a clearly elaborated, plainly spoken (at times humorous) explanation. It absolutely helped "bridge the gap" in my understanding of several subjects, which subsequently helped me pass the test.

If it's essential to project management ... it's in here! The first edition of The Project Management Answer Book addressed all the key principles of project management that every project manager needs to know. With a new chapter on scrum agile, updates throughout, and many new PMPreg; test tips, this new edition builds on that solid foundation. The structure of this update maps closely to the PMBOKreg; Guide, Fifth Edition, and is designed to assist anyone studying for the PMPreg; and other certification exams. Helpful sections cover: Networking and social media tips for PMs, including the best professional organizations, virtual groups, and podcast resources The formulas PMs need to know, plus a template to help certification candidates prepare and self-test for their exams Quick study sheet for the processes covered on the PMPreg; exam Key changes in PMBOKreg; Guide, Fifth Edition, for readers familiar with earlier versions who want "the skinny" on the new version. PMs at every level will find real gold in the information nuggets provided in this new edition. Those new to project management will find the comprehensive coverage and the depth of the answers especially valuable, and will like the easy-to-read style and QA format. For experienced managers looking for new tools and skills to help them pass their PMPreg; or other certification exams, this is a must-have resource.

About the Author Jeff Furman, PMP, after 15 years managing IT projects for Fortune 100 financial firms, now teaches several levels of project management for New York University's School of Professional Studies and Schack Institute of Real Estate. He also trains military project managers at various posts throughout the United States and has conducted PMP and train-the-trainer courses for IIUSA, Unitek Education, and NetCom Learning, where he twice won NetCom's Instructor of the Year award.
