By Percy Bell
This book is a standard text for International Trade Law Unit at The Australian National University. It is quite adequate for this. However I find its Canadian bias towards America bashing a bit tedious at times and I think that it oversimplifies the economic analysis.

By Tim Wu
This book is the best written text on International Regulation of Trade currently available.

The Regulation of International Trade 2nd Edition introduces the rules and institutions that govern international trade. The authors base their analysis on aspects of the subject from classic and contemporary literature on trade and political economy. This new edition has been fully updated to take account of the most recent developments in International Trade. New issues covered include: trade and competition trade and labour rights the Multilateral Agreement on Investment the Basic Telecoms and Financial Services WTO Agreements an analysis of the first three years of WTO dispute rulings, including those of Appellate Body. Drawing on the success of the earlier edition, this comprehensive and up to date text will be an invaluable guide to students of economics, law, politics and international relations.

The institutional/legal issues at the center of current trade policy debate are splendidly dealt with...in The Regulation of International Trade.... This makes the book a very useful text for both students of economics and international law. —Times Higher Education Supplement...the quality of the discussion at the core of the book will ensure that it is a widely used text. —Asia Pacific Business About the Author Michael J Trebilcock is a University Professor and Robert Howse an Assistant Professor in the Faculty of Law, University of Toronto.
