Warren Simons, Rose Curtis : The Resume.Com Guide to Writing Unbeatable Resumes before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Resume.Com Guide to Writing Unbeatable Resumes:

0 of 0 people found the following review helpful. One of the Better Resume' BooksBy ZeeAs a freelance resume writer and human resources professional, I can attest to this being one of the better books on the market. Not only does it cover the various types of resumes, but it also covers formatting and other tips that help your resume stand out. It's very easy to read and has a logical build. Also, it's not an inflated book with "galleries" of resumes that lead to you producing rubbish. Not only did I have great success with my own resume after using this book, but nearly 50 of the 60 resumes I've written for others landed in job offers. If you're like most people and respond to jobs online and email your resume out pretty frequently, this book has great tips on formatting your resume so that when downloaded, it's

easy to read. 1 of 1 people found the following review helpful. Good for those entry-level job hunters/those getting back in the game. By Eric Andersen I wish my college prof in my Foundations of Business Class would have just given us this book to use when crafting a resume, because I feel like I learned more from it than I ever did in his class. A revised version would be nice, since this dates back to 2004, but pair it with some current job hunting strategy books and you will be confident in the job hunt once more. Note: I purchased the Kindle version of this book, but would recommend the actual print version, as resume examples can be hard to read at times. 1 of 1 people found the following review helpful. Great Handbook. By Imonte I write resumes for a living, so this purchase was very important to me. I had a good idea about how to format and develop content, but this book really provides an up to date version of resume writing for all levels. Easy to read and follow. This book helped dot the I's and crosses the T's. I highly recommend this book.

The nation's #1 online resume service offers its exclusive advice on how to craft a winning resume.
