From Springer : The Role of the Regions in EU Governance before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Role of the Regions in EU Governance:

This publication compares for the first time how the regions in seven different countries (Austria, Belgium,

France, Germany, Italy, Spain and the UK) are involved in EU governance. It is also the first book which tackles this matter from two different perspectives; that of EU law and that of comparative law. It includes contributions both from well-established scholars in the field of EU law and from younger scholars.
