**David Whyte : The Three Marriages: Reimagining Work, Self and Relationship** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Three Marriages: Reimagining Work, Self and Relationship:

1 of 1 people found the following review helpful. just the idea of the three marriages is a perfect one. HoweverBy Cris MThe book has very interesting and revealing pieces; just the idea of the three marriages is a perfect one. However, for my taste, it was a bit long on the description that made me lost the idea of what was being developed. It is probably not the book I liked the best from David Whyte, but certainly a very interesting one I would still recommend.1 of 1 people found the following review helpful. Thought provoking with great literary examplesBy Rob ProuseThis isn't a

self help book but it does encourage the reader to ask valuable questions about their own relationships with work, partner and self. It is honest and insightful though at times a bit verbose. 0 of 0 people found the following review helpful. Great insight. What a wonderful way to conceptualize our many selves. By Carrie S. Rohde As always his prose is often like poetry. His ideas are stated clearly and provided deep insight into the motivation of human beings. I wish I had read this book earlier in my life. Thank you for sharing with us.

A radical, "crystalline" (Elle) approach to integrating our work, relationships, and inner selves from the bestselling author, poet, and speaker. The author of *Crossing the Unknown Sea* and *The Heart Aroused* encourages readers to reimagine how they inhabit the worlds of love, work, and self-understanding. Whyte suggests that separating these "marriages" in order to balance them is to destroy the fabric of happiness itself. Drawing from his own struggles and the lives of some of the world's great writers and artists—from Dante to Jane Austen to Robert Louis Stevenson—Whyte explores the ways these core commitments are connected. Only by understanding the journey involved in each of the three marriages and the stages of their maturation, he says, can we understand how to bring them together in one fulfilled life.
