About the Author Brian P. Carey is both the author and illustrator of this book. He has enjoyed success as a career consultant, and has had experience in retail, management, wholesale, sales, and service industries. All of the information that I have presented within this book has been developed through my personal experience. I was not happy where I was, and needed to make a change for the better. To start, I realized that if I continued to search for a job in the same conventional way that I was taught, I would keep ending up with the same type of position. Humans are creatures of habit, and I needed to find a different way of looking at things if I wanted to change for the better. I then began to research various career opportunities. I documented every detail of my research to use as a reference guide. What started out as a journal soon became my own workbook and treasure map to success. There are many steps that people take for granted throughout the interviewing process. Brian's goal is to bring each of you through these steps with ease, and help you to achieve all of your employment goals.
