A Pathway to Building Trusted EnvironmentsBy Larry CoppenrathIf you are working on building a transformational path to a servant leadership role this is a resource that will provide tools to enhance the very heart of your journey .... Building Trust !

The Trusted Executive helps leaders create a strategy for building trust in a globalized, technology-enabled, diverse and increasingly sceptical world. Through innovative coaching exercises, self-assessment exercises, inspirational interviews with international CEOs and underpinned by rigorous academic research, The Trusted Executive gives leaders the tools to build trust through three key pillars: ability, integrity and benevolence. Underpinning these pillars lie nine habits of trustworthiness; habits that will enable executives to deliver outstanding results, inspiring relationships and a positive contribution to society. With tools for measuring and developing leadership trust and focused strategies for handling trust violations, The Trusted Executive takes account of the ever-changing, increasingly diverse and multi-generational work environment. An essential tool for leaders who want to create a positive long-term legacy.

"This inspiring book sets out a leader's individual responsibility for driving the actions that create organisational trust. It is highly readable and addresses both the theory and the practice of the trust-building challenge. The measures John recommends are highly practical and well within the capability of all business leaders who are determined to leave a positive legacy."
