I was listening to while commuting to southern California. I finally got around to ordering the book. I received it on May 2, 2011. I must admit that I found Twitter baffling. I didn't really understand the concept. But after reading this book and playing around with Twitter I finally understood how Twitter works. So I thank the authors for that. I'm highly educated (Ph.D.) and in my 50s. So I expect each job hunt to take longer and longer. How do I reduce that amount of time? One answer is to set up passive job

search systems to make myself easy to find. It occurred to me while reading this book that the larger the number of communication channels, the shorter the job search will be. Ideally I could move seamlessly from one job to the next as necessary. Twitter is one such communication channel. Will Twitter find me a job? I doubt it. Will the combination of Twitter, LinkedIn, Facebook, a blog, a web page and anything else I can think of to let people know I exist do it? Yes, I hope so. 0 of 0 people found the following review helpful. Nice Guide for Job Seekers that Goes Beyond Generic Twitter Books By Michael D. Moss, PhD "The Twitter Job Search Guide" contains a great deal of useful, specific information regarding how one may effectively integrate Twitter into their job search strategy. However, the Kindle version suffers from numerous broken links. In addition, some images used as examples (how they should be done) in the book do not match those currently on the referenced sites (how they are actually done). Wasn't quite sure what to make of the disconnect. Regardless, the advice seems sound and the book offers value for the money. 1 of 1 people found the following review helpful. Twitter Job Search Guide - Job Search more... By Michael GreenGold "The Twitter Job Search Guide" is a rich guide for all flavors of Twitter users. It is crafted for the new face of virtual business networking and will show how the "Twitter Job Search" usage is fast becoming an essential career management tool. Also, while its usage has exponential components, the guide is aimed at job search but flows well. The Twitter Job Search Guide: Find a Job and Advance Your Career in Just 15 Minutes a Day beyond... Look Forward to Going Forward... Michael.

This groundbreaking book, from three leading career experts, shows readers how they can gain momentum in their job searches and careers through "tweets" that consist of fewer characters than a standard text message. Readers learn how to exponentially increase the size of their personal and professional networks by exchanging ideas, demonstrating subject-matter expertise, enhancing their reputation, and developing a fan club.

A terrific resource with step-by-step instructions for using tweets to land on your feet. ---Harvey Mackay (@HarveyMackay), author, New York Times #1 bestseller Swim with the Sharks Without Being Eaten Alive. The eminently readable Twitter Job Search Guide will have you excited to leverage Twitter's potential for your own professional gain. ---Alexandra Levit (@alevit), author, New Job, New You: A Guide to Reinventing Yourself in a Bright New Career. Perhaps one of the most hyper-relevant executive coaching tools available today. ---Raphael Louis Viton (@IAMRAFF), President, Maddock Douglas, The Agency of Innovation; Innovation Engine columnist for BusinessWeek.com.
