**Ervin Laszlo, Joel Kurtzman : The United States, Canada and the New International Economic Order: Pergamon Policy Studies on The New International Economic Order** before purchasing it in order to gage whether or not it would be worth my time, and all praised The United States, Canada and the New International

The United States, Canada and the New International Economic Order examines obstacles as well as opportunities associated with efforts to create a more equitable New International Economic Order (NIEO), with emphasis on the United States and Canada. The responses of diverse segments of the North American population to demands for a NIEO are analyzed, along with their perceptions concerning international economic cooperation, national economic prospects, and the problems of Third World development. This volume is comprised of five chapters and begins with a discussion on the importance of the NIEO to the U.S. economy, together with the prospective impact of some Third World objectives on the U.S. economy. Factors that influence U.S. responses to the NIEO are also considered. The following chapters explore the role of the U.S. Congress in the NIEO, paying particular attention to its support for official development assistance; the relationship between the U.S. labor movement and the NIEO; and Americans' perceptions and attitudes toward the NIEO. The final chapter deals with the response of the principal sectors of Canadian society to the NIEO. This book will be a useful resource for economists and economic policymakers.
