Overpromised - UnderdeliveredBy RaviThe title sounds promising: "Navigate the Nasties..." so you pick up the book and after going through a few pages, you will see that it is a smart and catchy phrase the author picked somewhere and just pasted it for the title. Forget navigating the nasties, author dabbles through topics so light heartedly that you will most likely just doze off. The book reads like personal notes of the author or a collection of articles from Inc.com he saved for reading later. Just let this book go and save your time and money.
