Bernard M. Hoekman, Petros C. Mavroidis : World Trade Organization (WTO): Law, Economics, and Politics (Global Institutions) before purchasing it in order to gauge whether or not it would be worth my time, and all praised World Trade Organization (WTO): Law, Economics, and Politics (Global Institutions):

The World Trade Organization (WTO) is one of the most important international organizations in existence today. It contains a set of disciplines that affect the ability of governments to impose trade restrictions, and has helped to support the steady expansion of international trade since the 1950s. It is a unique organization in providing a framework for member states to make binding policy commitments that are enforced through a unique dispute settlement system and a variety of transparency mechanisms. Despite its success, or because of its success,

the WTO has recently become the focus of vociferous protests by anti-globalization activists. This book separates the facts from the propaganda and provides an accessible overview of the WTO's history, structure and policies as well as a discussion of the future of the organization. It also confronts the criticisms of the WTO and assesses their validity.
