Not Your Average Self-Development BookBy Robin K MooreSelf-development books often make the assumption that either #1) You already know who your self is... or #2) You are in charge of creating the self you want to be. With that said, the reason this books stands head and shoulders above the rest is that the author proposes that you have a Divine fingerprint that has already been established by the One who

created you. This book helps you discover, then develop and finally deploy that fingerprint into the greatness that is YOU. I found it to be an excellent instructional on how to lead myself to become the person I was designed to be. It has helped me to elevate my thinking. Without hesitation, I highly recommend this book. 6 of 6 people found the following review helpful. GreatBy CathyWe are using this book for a womens group meeting It has been a God sent.
